WITH KENNEDY

CLARK AND WHITING LABOR IN POSTOFFICE FIGHT

Morgan and Shaffer in the Race for the Plum at Alliance and His Appointment May Cause a Break in Party Circles.

Special to Morning News. Washington, D. C., Dec. 16.—A delegation of Alliance and Canton citizens were here for some ten days working with Congressman Kennedy for the appointment of Edward Morgan as postmaster at Alliance as against Shaffer, who appears to have the backing of the mass of the Republican voters of that place. Kennedy is inclined to favor Whiting and Clark as much as possible but he has shown some hesitancy in appointing a man at Alliance who will bring the wrath of the party upon his head and might cost him his re-nomination to congress.

The delegation here consisted of Col. Morgan and his brother, the applicant for postmaster, and Attorney Koebler, all from Alliance, together with Jules Whiting and George Clark of Canton. The delegation labored with the congressman for several days and did not leave for home until nearly the middle of the week. They gave out no statement as to the success of their mission. It is understood that the plans as to the conduct of the campaign of the congressman for his re-nomination were gone over and it was decided that in order to satisfy Man-

illon to introduce a bill for the erection of a government building in that city.

An effort was made by the delegation to discredit the present Republican organization in Stark county and the result of the recent election was used to support their arguments. Clark especially took much to heart the defeat of the Republican mayor of Canton, whom he declared was defeated by the influence of the street railway company and the treachery of the Republicans who were opposed to him, Clark.

Kennedy is very much disturbed as he does not want to break with Whiting and Clark and yet he knows that they are after him to save their own political hide. If Stark county was off the map at the present time there would be one congressman that would shed no tears. It is said that a veiled threat has been made that if Kennedy takes up with the element that is at present in control of Republican politics that Whiting will retaliate by using his influence in Columbiana county against the congressman in the coming contest. As the situation now stands it is up to the Whiting-Clark crowd to show where a winning can be made in the congressional fight and they will then have Kennedy with them to a stand still, if they cannot, then it is a question as to whether the congressman will straddle or not. That he will never cast his fortunes with the present controlling power of the Republicans in Stark county can be regarded as an assured fact.

Some men complain that they don't get their just due, but if they did they would accuse fate of being cruel.

EISTEDDOD

Will Be Held in Canton on the Fourth of July.

The board of directors of the Stark County Elsteddod Society decided at their meeting at the Courtland hotel Saturday night that the next Elsteddod would be held in Canton on July 4, 1906 in the Auditorium. Besides the meeting the directors were entertained at a banquet in the private dining room, given by Anthony Howells. Mr. Howells was presented with a scroll penned by Prof. W. F. Gilmore, in recognition of the services he has rendered the society.

A. C. Eynon, one of the directors, said after the meeting that one of the reasons that a national holiday was the date selected for the next Elsteddod, was that many of the Welsh singers who work in mines, had signed contracts with their employers to work on every day of the year except Christmas, Labor Day and the Fourth of July. The last named was thought to be the best day of the three on which to hold the Elsteddod.

For Commissioner.

W. W. Shidler of this city has for some time been looking over the county setting stakes as a candidate for the Republican nomination for county commissioner. He has been all over the county looking up his chances and getting his workers and friends in line. He reports the situation very encouraging and says that when the time comes he will be in the fight to win.—Alliance Leader.
